SUMMARY

Innovative and detail-oriented web developer with a strong foundation in HTML, CSS, SQL , Python and framework like Django, Bootstrap. Eager to leverage academic training and hands-on project experience in web development to contribute to a dynamic team. Passionate about developing user-friendly interfaces and optimizing website performance.

TECHNICAL SKILLS

- HTML
- CSS
- SQL
- Python
- Django

EXPERIENCE

Project: Spotify Clone Web Application
Description: Developed a fully functional Spotify clone web application using HTML, CSS, and JavaScript to demonstrate front-end development skills and understanding of music streaming interfaces.
Key Features:
- **User Interface Design**: Crafted an intuitive and responsive user interface that mirrors the Spotify experience, utilizing HTML for structure and CSS for styling.
- **Music Player:** Implemented a music player with essential controls such as play, pause, next, previous, and volume adjustment using JavaScript.
- **Responsive Design:** Ensured the application is mobile-friendly and adjusts seamlessly to various screen sizes using media queries and flexible layouts.

Technical Used: HTML,CSS and JavaScript .

Project: Vada Pav Web Application
Description: Developed a dynamic web application using Python and Django framework to create an online platform for ordering and delivering Vada Pav, a popular Indian street food.
Key Responsibilities and Accomplishments:
- Designed and implemented the backend using Django, including models for managing user accounts.
- Implemented responsive frontend using HTML, CSS, and Bootstrap framework to ensure a seamless user experience across devices.
- Implemented authentication and authorization mechanisms to ensure secure access.

Technologies Used: Python, Django, HTML, CSS, Bootstrap, JavaScript.
